Paediatrician, Kootenay Boundary Regional Hospital

Fantastic opportunity! We are recruiting a third pediatrician to join us in providing community consulting services to the region, including a community consulting practice with hospital-based acute care. Our 75 bed regional referral centre includes a designated paediatric ward and level 1B nursery. Hospital-based consulting includes the emergency room, case room, nursery, and inpatient paediatrics.

We work closely with a tight knit group of obstetricians, family-practice based obstetrics providers and midwives, as part of our larger maternal-child department.

Our two-pediatrician outpatient clinic, located near the hospital, welcomes a third physician to join our collegial practice. Our schedule is flexible and family-friendly. Opportunities exist for career development, including developing and practicing an area of special interest or expertise. Undergraduate and resident teaching. A new hospital-based paediatric telehealth room will be available for sub specialty consults.

Kootenay Boundary Regional Hospital is a 75-bed facility that offers specialist services, core medical services and advanced diagnostic services to the residents throughout the Kootenay Boundary Health Service Area. As one of four service area hospitals operating in the Interior Health Authority network of health care facilities, KBRH provides hospital services to a regional population base of approximately 80,000 people. Located between Grand Forks and Nelson, KBRH offers services including core physician specialties, 24-hour Emergency and Trauma Services, Level 2 Laboratory, Intensive Care Unit (ICU), Acute and Obstetrical Care, Orthopedics, Plastics, Urology, Ophthalmology, Psychiatry, and Chemotherapy.
