

PATIENT ATTACHMENT MECHANISM & PATHWAYS STATUS

DIVISION	LOCATING A FAMILY PHYSICIAN	LOCATING AN ADULT SPECIALIST
<p>Comox Valley Division of Family Practice</p> <p>T: Central Referral Administrator: 250.898.1074 W: https://www.divisionsbc.ca/comox</p>	<p>This Division has a process for attaching patients to a family physician, the Central Referral Mechanism. A referral form is filled out and faxed to the central referral number and the patient is matched to a family physician. Referral forms can be obtained by contacting the Central Referral Administrator. The pediatrician can fill in this form with the patient's consent (or sign on behalf of the patient with their verbal consent). At this time, there is no wait list, but this can change.</p> <p>Pathways: Pathways was launched in October 2017 in partnership with Campbell River & District Division. GP information includes referral details but does not include whether they are taking new patients.</p>	<p>Pathways: Pathways was launched in October 2017 in partnership with Campbell River & District Division. Specialist information includes whether taking new patients.</p>
