

Patient Attachment Mechanism & Pathways Status

Division	Locating a Family Physician	Locating an Adult Specialist
<p>Central Interior Rural Division of Family Practice</p> <p>W: https://www.divisionsbc.ca/cird</p>	<p>For Williams Lake, most patients referred to a specialist are attached and as such youth transitioning to adult care is not a concern in the community. A group of doctors in Williams Lake have agreed to see unattached MHSU patients for Dr. Burkey (Child Psychiatrist) so he can get a referral put through. Can do the same formal process for a pediatric patient if need be but don't see the need right now. For 100 Mile House, attachment is not a problem as each clinic has a walk in component which could deal with this.</p> <p>Pathways: The Board has decided not to implement this program in the Central Interior Rural Division at this time.</p>	<p>Pathways: The Board has decided not to implement this program in the Central Interior Rural Division at this time.</p>
