At this time they are accepting only “high needs” patients.</p> <p><b>Pathways:</b>            Pathways: Fraser Northwest was the birthplace of Pathways. They do list family physicians and they do acknowledge if taking patients. The only proviso is that a family physician may take only patients with a certain diagnosis. All pediatricians that are listed on Pathways have access to Pathways and will be able to look up physicians who are accepting patients and that means that they accept all kinds of patients.</p>	<p><b>Pathways: Division does have Pathways and</b> adult specialists are listed.</p>
