

## Patient Attachment Mechanism & Pathways Status

Division	Locating a Family Physician	Locating an Adult Specialist
<p><b>North Vancouver Division of Family Practice</b></p> <p>W:  <a href="https://www.divisionsbc.ca/northshore/gplink">https://www.divisionsbc.ca/northshore/gplink</a></p>	<p>About 4.5% of North Shore residents, or 8,600 people, are actively seeking a family physician, and this Division is providing a service called “GP Link” to help them. They survey their members quarterly to identify those who are willing to accept new patients. Some physicians have specified an interest in accepting patients with certain conditions, while others are accepting all types of patients. To ensure that GP offices and North Shore Division of Family Practice staff are not overwhelmed with calls from unattached patients, they are expanding GP Link gradually. If you have a patient, best would be to click on NS Division website, and call number listed there. As of now, the supply and demand is working out alright.</p> <p><b>Pathways:</b> They do have Pathways. No family physicians taking on patients are listed. There is now pediatrician access.</p>	<p><b>Pathways:</b> They do have Pathways which lists specialists. There is now pediatrician access.</p>
