

## Patient Attachment Mechanism & Pathways Status

Division	Locating a Family Physician	Locating an Adult Specialist
<p><b>Vancouver Division of Family Practice</b></p> <p>W: <a href="https://www.divisionsbc.ca/vancouver">https://www.divisionsbc.ca/vancouver</a>            E: <a href="mailto:blai@divisionsbc.ca">blai@divisionsbc.ca</a></p>	<p>This Division does not have a portal for the general public, but works with health care providers (referring provider) directly to find family physicians for unattached patients living in Vancouver. You can contact Barbara Lai to establish a referral partnership. Only a 1-page referral form needs to be filled out including patient consent. This form, along with clinical documentation, will be reviewed by the clinical team for prioritization in matching. Referred patients will be contacted by the team.</p> <p><b>Pathways:</b> The Vancouver Division has Pathways set up, and if a pediatrician would like to join (which they really encourage), please contact this email: <a href="mailto:rcorkish@pathwaysbc.ca">rcorkish@pathwaysbc.ca</a> Vancouver Division of Family Practice does not list family physicians on Pathways who are providing primary care. They have, however, included the "specialty area" of "Family Practice" on Pathways for family doctors who wish to be listed as providing specialty services to their GP colleagues. Such areas of practice include primary care Obstetrics, Sports Medicine, etc.</p>	<p>Information unavailable at this time.</p>
